

African BioGenome Project
Genomics for the future of biological diversity across Africa

This is to certify that
Oluwaseun Ajayi
virtually attended the

African BioGenome Project (AfricaBP)
Open Institute for Genomics and Bioinformatics Workshop
for Genomics and Bioinformatics Regional Workshop on
'Advancing One Health through Biodiversity Genomics:
Innovations for a Healthier Southern Africa Ecosystem'

Held virtually and on-site on 8th and 9th September, 2025, at the
South African Medical Research Council (SAMRC), Cape Town, South Africa.

Prof. Anne Muigai

*Deputy Vice Chancellor,
National Defence University, Kenya,
& Co-chair of the steering committee:
African BioGenome Project*

Dr Mongezi Mdhuli

*Executive Director-Chief
Research Operations Officer,
SAMRC*

Prof. Craig Kinnear

*Director,
Genomics Platform, SAMRC*

AfricaBP is a coordinated pan-African effort to build capacity (and infrastructure) to generate, analyze and deploy genomics data for the improvement and sustainable use of biodiversity and agriculture across Africa.
