COURSE CODE: H810_1

Assistive technologies and online learning

<https://www.open.edu/openlearn/education-development/assistive-technologies-and-online-learning/content-section-0>

Course summary

In this free course, Assistive technologies and online learning, you will explore some of the technology that disabled students use when accessing computers. We will take a look at the tools and techniques that make it possible for disabled students to engage with online learning.

Learning outcomes

By completing this course, the learner should be able to:

- understand what is meant by assistive technology
- recognise different forms of assistive technology
- understand some students' experiences of using assistive technology.

Completed study

The learner has completed the following:

Section 1

What is assistive technology?

Section 2

Built-in assistive technology

Section 3

Specialist assistive technology

Section 4

Conclusion
